CONGRATULATIONS WEBELOS IIS

On February 19, 2011, eight boys from Dens 9 and 10 will cross over to Boy Scout Troop 27 in Stewartstown. All of the boys have eagerly awaited this day as they finish their time with Cub Scouts.

Their Blue and Gold Banquet is a 1950s rock 'n roll theme complete with DJ, cake and dress up competitions, hula hooping, burgers and fries, and an ice cream sundae bar.

We extend them all well wishes as they start the next phase of their Boy Scout journey.

May they have fun and always remember to be prepared.

A special thank you to their leaders for all the fun, guidance and time that they spent on helping these boys develop some wonderful lifelong skills.

LOUIS SENTMAN

Through Cub Scouts I have been on three camping trips. My first was my most favorite. My Dad and me went to Camp Tuckahoe. We camped for 4 nights and 5 days. My third camping trip I went without my parents to Wizard Ranch this past year. This is when scouting really taught me a lot. It taught me everybody is not nice on this planet. I hope to become an Eagle Scout and have a job in science with a college degree

from Eagle Scouts.

COLIN MCFARLAND

I've had a fun filled 5 years in scouting. The first time I met my den and den leader, Mrs. Maria, I remember making a stuffed tiger tail. I remember going to Camp Tuckahoe for a long weekend with my Dad in wolf scouts. I enjoyed building and launching rockets as a Bear. I had fun building many crafts such as a rubber-band gun and building and painting a tool

box as a Webelo.

Throughout my time in scouting we went on many trips. Some of my favorites were to a Dreamwright's play (*Charlie and the Chocolate Factory*). We had a tour through True Value Hardware. Also, the Stewartstown Police Station. We went to MaizeQuest in the evening and had a fun time at Laser Tag.

Scouting has taught me many things. The most important is how to be a good citizen in my community. Some other skills include: BB shooting, archery, boating, fishing, camping and nature skills.

The most important thing I'm taking away from Cub Scouts are the friendships from all the people in my den.

JAMES LIPPIARD

Some of my favorite activities were archery and BB shooting.

Some of my most memorable events were going to the Smithsonian in Washington, DC.

Scouting has taught me to help people who are in need. Scouting has also taught me how to build a

campfire and set up a tent.

In the future, I plan to join a Boy Scout troop, become an Eagle Scout, and go on a lot of fun camping trips. My favorite Blue and Gold was my brother's because there was a lot of Chinese food.

FROM MISS MARIA

Congratulations, Webelos 2's!

I remember our first Tiger meeting, getting to know you all for the first time. At the time, I didn't realize that you all would steal a special place in my heart. We had plenty of good times, we grew individually and as a group.

Parents, you all thank me over and over for the time I gave and shower

me with gifts that I appreciate BUT the greatest gift you all have given me is letting me be a part of your son's life for the past 5 years. I will cherish that forever. You are such a great group of boys, each different and special in your own way. I wish you all the very best in everything you do.

— Miss Maria

FROM MR. MATT

I would like to first congratulate the boys on reaching the end of their path of Cub Scouts. It seems like only yesterday that I was asked to be the new Tiger Den Leader for pack 156.

I want to thank you for allowing me to teach you the value of scouting and be able to watch you grow these past few years. I want to wish you the best of luck as

Scouts. Don't forget your good times in Cub Scouts as you all become fine young men.

Best Regards,

Mr. Matt

FROM MR. MIKE

How fast they grow.

I would like a moment to congratulate all of the Webelos II scouts taking the first steps in transition from boyhood to manhood. I look back when they were all Tiger Cubs worried about who did what and when snack time was, to Webelos, young boys, working together as a team ready to take on the next challenge. They started

as one in many, with only eight completing the adventure. It's going to be tough for us to see them move on, but we should all rest assured, that they are prepared, and have the tools and knowledge to continue to their journey to the next level. Congratulations to all the Webelos II. Good luck gentlemen in your next scouting adventure. I know the new troop you join is truly getting "The Best in Class." —Mr. Mike

**Thank you for all
you have done
Miss Maria,
Mr. Matt, and
Mr. Mike.
We had a lot of
fun.**

Mason

Sam

SAM BRUENING

My favorite activity was going to all the camping activities. My memorable event was when we pogo sticked across a river. Scouting has taught me how to tie knots, and how to identify snakes. What I want to learn is how to build a computer.

JOEY THOMAS

My favorite activity was the derby racing. I liked it because we were able to build and race our own cars. Scouting has taught me to respect the outdoors. I hope that I become a den leader for my own son. My most memorable event was when we did the "ugly pumpkin" skit because I felt like I was crazy with my feet inside my shirt.

MASON KIRBY

I feel really good about Scouts. It has taught me a lot such as fishing, working together, knot tying, geology, whittling and throwing tomahawks. I really enjoyed my den because we did so many fun activities together. Mrs. Maria was the awesomest leader of all time. I met some really nice people that I might not have known otherwise.

My favorite activities were Camp Tuckahoe, spending time with my friends, making fires at camp, earning badges, playing ultimate Frisbee for the first time, seeing cool nature shows, being funny, Laser Dome, Constellation, and the Monster Truck Show. The Constellation was special because if you go to the Baltimore Harbor you can see it and I slept on it and had lots of memorable moments on it like the 20 degree tem-

perature. Camp Tuckahoe was fun because I went in crying because I didn't want to go and came out crying because I didn't want to leave.

I am hoping to at least get to Life Rank in Boy Scouts, maybe Eagle. I hope to meet new people, make new friends and have fun in Scouts.

You should stick with it too.

MICHAEL LIZZI

Some of my favorite and most memorable moments in scouting was shooting paintballs with a slingshot and the rocket launch. I thought it was cool because I had never shot paintballs before and only used a slingshot once before. I had fun building my own rocket from paper and wood then shooting it into the sky. I really

enjoyed spending time with all my friends at resident camp. The food was always good even though the bathrooms weren't. Canoeing and jumping off the raft was awesome. The pool, archery, and BB gun ranges were my favorite activities at camp.

Scouting has also taught me many new skills I can use when I get older. I learned how to fix a flat bike tire, change a light bulb in a car tail light, and change the

engine oil. I learned how to use a pocket knife and the importance of the blood circle. I learned how to shoot a bow and arrow and a BB gun. I hope to earn the arrow of light and continue in Scouting after I cross over to Troop 27.

THOMAS GAUMER

I have had many good memories of my time in Cub Scouts. I've really enjoyed making my Pinewood Derby car and getting a ribbon in the race. Camp Tuckahoe has given me many skills that I will use, as well as being fun. In my den, I've enjoyed making rockets and playing flag football. Halloween Days and the Blue and Gold Banquet are events I had always looked forward to in

the year. It was also fun to make a world record for the most square knots at the Wizard Safari.

Scouting has taught me many things that I will take with me in life. It has taught me to respect people and to help those in need. I've learned many camping skills and to be prepared. Also I know how to tie different knots and the proper way

to use a pocket knife.

I will take all that I've learned when I cross over to Boy Scouts. The skills that I've learned will be used when I go camping. I want to close by saying thank you to my dad who has been my den leader since I was a tiger. He has taught me many things and has been right by my side on my journey in Cub Scouts.

**Thanks for coming
to our Blue & Gold
Banquet.**
